

# K9 SUPERFUEL

## "XTREME K9 BODYBUILDER"

**SUPERFUEL** is the most advanced muscle performance enhancing formula in history.

**COMPARE SMELL & TASTE?** next to any other K9 bodybuilder supplement, and watch which they choose every time. And because it's human grade, eat some yourself and see how far natural flavoring has come.

**COMPARE PERFORMANCE** New nitric oxide hemodialtors, micellar caseins, low glycemic carbs, joint hyaluronate, estrogen blockers, endogenous double-action creatine, and more, boost muscular performance to higher levels. Beyond question, K9 SUPERFUEL is the most effective for increasing canine performance today...or ever.

**COMPARE VALUE** Consumers get more for their money, and they know it. More of today's best supplements are built-in, producing noticeable effects fast. So they don't have to add in effective products others leave out. Plus, consumers get free product with each size over my old products, up to 2 lbs worth-up to 35 free servings.

### **What is K9 SUPERFUEL?**

100% natural K9 SUPERFUEL is the ultimate K9 Performance and bodybuilding gainer. K9 SUPERFUEL enables dogs to perform better and gain lean muscle. By reducing fatigue with lactic acid buffers, and increased oxygen utilization via L-Citrulline, K9 SUPERFUEL helps dogs avoid injury caused by being tired.

### **What will K9 SUPERFUEL do for my dog?**

K9 SUPERFUEL also helps gain lean, healthy muscle. K9 SUPERFUEL is perfect for dogs needing to gain functional weight-without getting fat. Because it is predigested, K9 SUPERFUEL is gentle for even the most stressed dogs.

### **What results will I see with K9 SUPERFUEL?**

- **K9 PERFORMANCE** (Agility, Shutzhund, etc): Enhance K9 Performance, Reduce fatigue, Boost recovery, Lower chance of injury, Strengthen joints, Sharpen mental concentration and focus, Buffer lactic acid.
- **SHOW, INJURY & ILLNESS:** Solid weight gain, Convert calories into functional muscle, Protect lean muscle, Reverse muscle breakdown, Accelerate recovery and recuperation, Optimize metabolism, Lower stress hormones.

### **Does K9 SUPERFUEL contain drugs?**

K9 SUPERFUEL is 100% natural and will not test positive. It contains whole foods, extracts and nutraceuticals. Ingredients in K9 SUPERFUEL mimic the benefits of some drugs but without side effects. MSM, for example, helps joint pain and inflammation. Creatine helps improve performance and recovery as much as dangerous steroids.

### **Is K9 SUPERFUEL only for canine athletes?**

K9 SUPERFUEL benefits any stressed dog. Although it's great for bodybuilding and K9 Performance, it's also dynamite for traveling, show, recovering from illness, etc.

### **Do dogs like to eat K9 SUPERFUEL?**

Yes. Dogs love its smell and taste. With real meat proteins, dogs go after it big time. The problem is keeping them away from K9 SUPERFUEL!

Super octane **STRENGTH FUEL?** generates more muscle power, for longer, with less fatigue. Special muscle fuels drive higher intensity movements, plus neutralize lactic acid. Faster ATP regeneration enables muscle fiber to fire even during anaerobic conditions. Power through the hardest workouts while others fade.

*Jnl Biol Chem 1:229-252, 1923, Annals of W Med Surg 5:825-829, 1951, Euro Jnl Clin Invest 29:1060-1065, 1999, ACSM 46th Annual Meeting, June 1999, Int J Sport Nutr Exerc Metab 13: 382-395, 2003, Int J Sport Nutr Exerc Metab 13: 294-302, 2003*

### **EXTEND ENDURANCE More Gas In the Tank**

New **ENDURANCE FUEL?** powers slow twitch muscle with long lasting energy for hours. "Clean burning" gluconeogenic fuels extend endurance even longer. Buffers lactic acid (H<sup>+</sup>). Boost stamina & second wind, sharpen mental focus.

*Intl J Sport Nutr 1:249-256, 1991, Eur J of App Phys 64:36-41, 1992, Eur J of App Phys 71:362-368, 1995, J of Chinese Spt Med Vol 15, No.4, 1996, J of Appl Phys 83, 860-866, 1999, Am J Clin Nutr 72:618S-23S, 2000*

### **BUILD MUSCLE, BURN FAT Lean Muscle**

Convert calories into lean muscle, more energy. Turn on fat burning metabolism. Increasing lean muscle boosts metabolic rate, burning additional body fat. Normalize hormones by blunting feminizing effects of environmental estrogens, trans fats. Simultaneous muscle gain & fat loss results in lean, "cut" look of today's athletes.

### **STRONGER JOINTS Rock Solid Foundation**

Strengthens joints, reduces pain. Inactivates pain & inflammation agents. Protects cartilage breakdown, stimulates greater growth (chondrogenic). Hyaluronic acid lubricates, protects joints (viscosupplementation). Strengthens all articular tissues. Pain free, stronger joints enable harder training, enhanced performance.

*Curr Ther Res 37, 82-94, 1985, Am J Med 83(5A):66, 1987, Arthritis Rheum 39:623-8, 1996, Vet Res Oct;58 (10):1132-40, 1997, North American Veterinary Conference Proceedings 15 (585-586), 2000, Rheumatol 30:523-528, 2003*

### **JUMP START RECOVERY Today's Performance Is Only As Good As Yesterday's Recovery**

Accelerate healing & recovery after workouts. Reverse muscle breakdown & cell damage. Recharge muscle glycogen, ATP in hours, not. days. Reduce soreness, oxidative damage & stress hormones. Boost supercompensation-increased strength/endurance. Begin next workout fresh, ready for injury free peak performance.

*J Appl Physiol 47:514-521, 1979, Proc 2nd Ann Internat Sled Dog Vet Med Symp 102-106, 1995, Free Radic Biol Med 19(2):227-50, 1995, Neuroendocrinol. 52: 243-248, 1997, Strength Conditioning J 25: 48-49, 2003, Exerc Sport Sci Rev 31: 127-131, 2003*

### **SUPER IMMUNITY Foundation to Health & Performance**

Stronger immune system creates elevated health, enhanced recovery & performance. Immunoglobulins A & G, IGF-1 & lactoferrin improve immunity. Works with gH (growth hormone) to repair/grow muscle, resist infection & boost antibodies. Increase body's ability to undergo heavy workloads, prevent overtraining & injury.

*Endocr Rev, Feb;15(1):80-101, 1994, Clin Endocrinol Metabol 82 (1): 223-8, 1997, J Appl Physiol Oct; 83(4): 1144-51, 1997, Arch Immunol Ther Exp (Warsz) 46(4):231-40, 1998, Eur J Clin Nutr 57: 595-603, 2003, Eur J Nutr 42: 228-232, 2003*

**ZERO TRANS FATS** Avoid killer trans fats. Specifically profiled to increase performance, immunity & looks-even boost tracking ability!

**HUMAN GRADE** Same as pro athletes eat. Pet grade food doesn't improve performance in humans or dogs. Major increases require human grade.

**BETTER TASTE** Good enough to eat yourself. New 100% natural methods unlock more roast chicken & beef taste, & aroma. Trigger feeding even in the most picky dogs.

**CLA/ALA** Most powerful team you never heard of. Improve heart health, immunity, fight diabetes, cancer & burn body fat. The only formula to use most bioactive, doubly effective form of both.

**LOWER GLYCEMIC INDEX** Give their pancreas a break. Healthier blood sugar & insulin. Increase immunity, prevent diabetes, promote leanness. A huge, healthy change over others.

**NATURAL HORMONE RATIOS** Restore performance balance. Normalize androgens by blunting feminizing effects of trans fats & environmental estrogens. Boost protein synthesis, immune function.

**K9 JOINT POWER?** Joints strong enough to jump. Chondroprotectives & chondrogenics protect, repair cartilage. With pain relieving, joint building breakthroughs SAM-e & hyaluronte.

**MICELLAR PROTEINS/COLOSTRUM** Super for puppies and stressed adults. Factors in mother's milk boost muscle metabolism and immunity even in grownups! IGF-1 is incredibly beneficial to adult stressed dogs.

**CUSTOM K9 CREATINE?** Better performance, no cramps. Tailored to dogs. Delivers most bioavailable creatine, then triggers the body to produce 3X more of its own!

**GREEN TEA, BLUEBERRY, GINGKO, ETC.** Super antioxidants. Most diverse phytonutrients, polycarotenoids, flavenoids, polyphenols and others that boost immunity, sharpen concentration & more.

**HEMODIALATOR** Oxygen superhighway. Relax, widen blood vessels to speed more oxygen & nutrients to muscle. Increase blood flow; improve performance, recovery & immunity.

**STRENGTH FUEL?** Power through when others fade. Greater muscle ATP power, for longer, with less fatigue. Buffer lactic acid. Enables muscle fibers to fire even during extremes.

**ENDURANCE FUEL?** Second wind. Clean burning gluco neogenic fuels & others power slow twitch muscle, neutralize lactic acid. Boost stamina, reduce fatigue for hours.

**GLUTAMINE PEPTIDES** Twice the power of old glutamine. Protect lean muscle, blunt stress hormones, trigger protein synthesis, fuel liver energy.
